

**North American Longbow Safari
hosted by
Traditional Archers of California**

To Whom It May Concern:

We are contacting you on behalf of Traditional Archers of California (TAC). We are a traditional archery organization comprised of members who represent numerous smaller clubs mostly from across California, Nevada & Oregon. Our primary mission is to promote archery and bow hunting using longbows and primitive equipment.

Each year a different state or Canadian province hosts the North American Longbow Safari (NALS) . This International event alternates between the Western US & Canada each year. This is the 1st time in 34 years that the event will be hosted in California. We are anticipating a very successful event, with hundreds of participants coming together to enjoy a traditional archery event in the beautiful Sonoma County. NALS takes place over the 4th of July weekend, with this years event being on July 2nd and 3rd.

Hosting the NALS allows TAC to raise funds that support programs and activities that promote the objectives of TAC as a club, as well as the affiliate clubs.

TAC may be a relatively small group, but our members are extremely active, passionate, and dedicated to sharing and perpetuating the shooting of traditional equipment. For this reason we are asking for your help in supporting TAC as a sponsor for the 34th Annual North American Longbow Safari.

Raffle items, cash donations, gift cards, outdoor equipment would be the most effective way to get involved and help support this program. We would like the opportunity to list you as a sponsor and promote your products and name.

Thank you for your consideration.
